Part-A: Civil Works (All the items include VAT,TAX & Profit)						
SL No.	Description Of Works.	Quantity.	Unit.	Rate in TK.	Amount in TK.	Remarks.
01.	<u>Site Clearing, Ceiling Removal, Brickwork Site Preparation, and Window Stiles Dismantling Package Work:</u> Executing complete site clearing, selective dismantling, and preparation works for the new renovation site. The scope includes dismantling and clearing the existing temporary bamboo structure/ceiling, removing all loose debris, organic matter, and old materials from the interior area. Cleaning, chipping (hacking), and leveling the floor/wall surfaces to prepare the ground and structural joint boundaries for new brick masonry wall construction. Carefully unmounting and dismantling existing door/window shutters, window stiles, broken glass panes, hardware fittings, and frame accessories to facilitate subsequent structural repairs and re-servicing. The item covers site clearing, stacking reusable items, safety precautions, scaffolding, labor, tools, equipment, and off-site disposal of waste complete in all respects as per direction and acceptance of the Engineer-in-charge.	1.00	Job	Rate only		
02.	<u>Brick Masonry Work Package (Main Room Wall & Toilet Enclosure):</u> Supplying materials, labor, scaffolding, tools, and equipment for constructing 5" thick first-class brick masonry walls. The scope includes constructing 1 No. main wall (approx. 18' length by 9'-10' height) and toilet enclosure walls (comprising 8' length and 4' length wall segments up to ceiling height, excluding a 2' wide door opening). The work involves using first-class burnt clay bricks bedded in 1:4 cement-sand mortar, embedding RCC lintels/band beams over door openings where required, maintaining proper line, level, and plumb alignment, raking out mortar joints for plaster adhesion, minimum 7 days water curing, scaffolding, labor, tools, equipment, and cleaning complete in all respects as per direction and acceptance of the Engineer-in-charge.	1.00	Job	Rate only		
03.	<u>Raised Toilet Floor, Piping Passage & Stepped Commode Base PCC Casting Package Work:</u> Executing two-tier step floor casting and sub-surface pipe passage preparation for the toilet area. The scope includes casting a 6" raised Plain Cement Concrete (PCC 1:2:4 ratio using 3/4" down-graded aggregate, Sylhet sand, and Portland cement) sub-base floor above the main room floor level to accommodate internal water supply and waste drainage pipe layouts for the basin and tap fittings. The work also covers casting an additional 6" raised step platform (total 12" elevation from the main room floor) over the raised toilet floor to form a solid, leveled base for squatting pan / commode installation. Scope includes brick boxing/shuttering, proper compaction, maintaining required drainage slope towards the floor trap, smooth trowel finish, minimum 7 days water curing, labor, tools, equipment, and cleaning complete in all respects as per direction and acceptance of the Engineer-in-charge.	1.00	Job	Rate only

Part-A: Civil Works (All the items include VAT,TAX & Profit)

SL No.	Description Of Works.	Quantity.	Unit.	Rate in TK.	Amount in TK.	Remarks.
04.	Brick Seating Bench Construction, Sand Filling, and PCC Top Casting Package Work: Constructing classroom seating bench structures having an ideal standard height of 18" (1.5') and seat width/depth of 18" (1.5 ft). The work involves repairing the existing damaged bench section and constructing a new approximately 34-36 ft long brick masonry seating wall using first-class bricks in 1:6 cement-sand mortar. The scope includes filling the inside hollow area of the bench structure with clean sand, well-compacting it, and casting a 3" thick Plain Cement Concrete (PCC 1:2:4) layer over the 18" wide top seating surface. The item covers all sand-cement mixing, bricklaying, sand compaction, top slab smooth finishing, curing, labor, tools, scaffolding, and site cleaning complete in all respects as per direction and acceptance of the Engineer-in-charge.	1.00	Job	Rate only		
05.	Sanitary Napkin Disposal Chamber (All Complete Package): Construction of a specialized Sanitary Napkin Disposal Chamber of clear inside size 3'-6" \ 2'-6" \ 3'-6", including all necessary Civil and RCC works (earth excavation, 5" brick work, RCC top slab, internal plastering with net cement finishing), supplying and fixing of 1 No. internal MS/SS Disposal Grill/Net, 1 No. Sanitary Napkin Disposal Inlet door, and a 4" dia RCC/PVC pipe with cowl for smoke/ventilation, complete in all respects as per drawing, specification and direction of the Engineer-in-charge.	1.00	Job	Rate only		
06.	Interior Wall Plastering and Wall Repair Package Work: Supplying materials, labor, and equipment for plastering work in the toilet area and repairing damaged plaster surfaces across interior , exterior walls and newly walls. The scope includes chipping off all loose, damaged, or cracked existing plaster down to the bare brickwork. Applying a 0.5" to 0.75" (12mm to 19 mm) thick cement-sand plaster (1:4 ratio for toilet walls and exposed exterior areas, 1:6 ratio for interior room walls) using washed Sylhet/local sand and Portland cement. The work covers hacking existing brick surfaces for proper bonding, maintaining precise plumb and level alignment, smooth float/trowel finishing, corner rounding/curing, minimum 7 days water curing, scaffolding, labor, tools, equipment, and site cleaning complete in all respects as per direction and acceptance of the Engineer-in-charge.	1.00	Job	Rate only		
Sub Total (A)-Civil Work-

Part-C: ELCTRICAL & PLUMBING Works (All the items include VAT,TAX & Profit)						
SL No.	Description Of Works.	Quantity.	Unit.	Rate in TK.	Amount in TK.	Remarks.
11.	Complete Electrical Wiring, Main Connection Repair, and Light & Fan Fixtures Installation Package Work: Executing complete electrical wiring, servicing existing main connections, and supplying and installing required light and fan fixtures for the renovated room and toilet. The scope includes thoroughly inspecting, repairing, or replacing damaged main power cables, sub-main lines, switchboards, MCBs, and installing new flame-retardant copper wiring (1.5\ sq mm} and 2.5 sq mm} in PVC conduits) wherever existing wiring is missing or unusable. Supplying and installing 4 Nos. energy-efficient LED tube/panel lights (2 Nos. inside the main room, 1 No. in the toilet, and 1 No. for external wall/veranda lighting). Supplying and mounting 2 Nos. ceiling fans (56" size) fitted with electronic speed regulators over designated ceiling hooks inside the main room. The work covers proper grounding/earthing continuity check, circuit testing, switch/socket replacements, scaffolding, labor, tools, equipment, and site cleaning complete in all respects as per direction and acceptance of the Engineer-in-charge.	1.00	Job	Rate only		
12.	Water Supply Connection from Existing Tank, Waste Drainage to Existing Septic Tank, and Sanitary Fixtures Installation Package Work: Supplying materials, fittings, labor, and equipment for installing a complete internal and external plumbing and sanitation system for the toilet area. The scope includes laying and connecting new heavy-duty uPVC/PEX/CPVC water supply pipelines extended from the existing overhead water tank to the toilet (with necessary stop cocks, valves, and wall clamps). Laying and connecting PVC soil and waste discharge pipelines with proper gradient and leak-proof jointing to the existing septic tank and soak pit. Supplying and installing 1 Set of high-quality ceramic commode / squatting pan with flushing cistern, 1 Set of wall-hung wash basin with CP pillar cock and waste fittings, CP bib cocks/taps, health faucet/push shower, floor traps with grating, tissue paper holder, soap dish, and towel rail. The work covers wall/floor chasing, pressure testing of lines, weather-proof silicone sealing, scaffolding, labor, tools, equipment, and cleaning complete in all respects as per direction and acceptance of the Engineer-in-charge.	1.00	Job	Rate only

GENERAL NOTES

1. Special Instruction & Field Inspection Note:

Mandatory Field Inspection: The prospective bidder/contractor must physically visit and inspect the respective school sites prior to submitting their financial rate/quotation.

2. Scope Verification: The rates quoted under each "Job / Lump-Sum" item must reflect the actual site conditions, physical measurements, and extent of repair required.

3. No Claim Policy: No additional claims or rate adjustments will be entertained after the award of the contract on the grounds of lack of site awareness or miss judgment of work volume.

4. Provision for Unlisted Repair/Additional Works: If the bidder identifies any additional repair, structural restoration, or necessary auxiliary work outside the defined scope during site inspection, they must list those items separately in the designated "Schedule of Additional / Out-of-Scope Works" table with itemized rates. Unlisted claims after bid submission will not be accepted.
